Salinas, CA 93901

Dear James Serrano

A few weeks ago, I sent you an e-mail regarding the issue of bad driving visibility conditions at the intersection of Donner Way and Donner Circle, Salinas, CA 93906.

I have lived at 1778 Donner Circle for 39 years, since 1979 when I got married. This intersection year after year has become increasingly busy and dangerous. Vehicles travel at a high speed on Donner Way. For those of us that live on Donner Circle, it is very difficult to make a right or left turn onto Donner Way due to poor visibility. There are so many cars on both side of Donner Way including big trucks and cargo vehicles that are big and bulky. At times, I have my 10 yr old and 1 month old grandchildren in my vehicle and the thought of an accident occurring at this intersection terrifies me.

On May 30, 2019 I received the Flyer regarding the proposed curb restrictions. I just sat there and cried for a few minutes thinking, "Oh Lord please let our city of Salinas hear our concerns and accept this change for our good."

This safety issue is extremely important to our family of five.

Thank you so very much for taking this proposal into consideration.

I plan to attend the T&T meeting on June 13, 2019 at City Hall.

I pray this proposal is accepted. It will save lives.

Rosalinda Martin
