

City of Salinas 200 Lincoln Ave Salinas CA 93901

DATE: May 31, 2016

TO: Mayor and City Council

FROM: Ray E. Corpuz, Jr., City Manager

SUBJECT: CAPITAL IMPROVEMENT BUDGET (FY 2016-17) AND PROGRAM (FY 2017-22)

The Capital Improvement Budget (FY 2016-17) and Program (FY 2017-22) for the City of Salinas details the capital investments required by the community to maintain and enhance our residents' quality of life. Given the significant costs associated with capital investments, the CIP is a multi-year document. The CIP is updated annually with comprehensive revisions occurring every two years. Comprehensive revisions to the CIP that included the identification of several new projects were made this year for FY 2016-17 through FY 2021-2022.

Building on the efforts of the last several years and guided by the City of Salinas' goals and General Plan, this CIP continues targeted investments to maintain, rehabilitate, and rejuvenate a wide array of public infrastructure to improve system reliability, enhance recreational experiences, advance public safety, and in general ensure that Salinas remains well positioned for further economic growth and opportunity, all this coupled with the vision of new police and library facilities that will contribute to enhance life for Salinas' residents.

During FY 15-16, the total Capital improvement Project budget was over \$91.5 million. Of this amount an estimated \$40 million will be actually spent while the difference will carry over to the following fiscal year. After the passage of Measure G proposition and following the city's taxpayer priorities, the Council approved \$18,243,200 in different capital improvement projects that included improvements to current buildings, planning and construction of a new police facility and equipment acquisition and replacement. Among the completed list of projects in FY 15-16 we find the Industrial Waste Conveyance System Improvement; East Market Street Reconstruction and Slurry Seal; East Alisal/Skyway Boulevard Roundabout; Cesar Chavez Playground and the Sanitary Sewer Pipes Repair/Rehab. Staff continued with those projects that require annual investments like the Street Tree Planting, the Annual Street Repair and rehab, Storm Water (NPDES), Economic Development efforts and Police and Fire Vehicle Replacement. It is worth to mention the progress achieved in an ambitious program of Energy Related Improvements that required an investment of over \$26 million. This level of investment was accomplished as a result of residents self-imposed sales and transaction taxes coupled with aggressive grant writing efforts, federal assistance and well planned distribution of restricted funds. These accomplishments are important to note, because they provided the City with the opportunity to effectuate a more beautiful place to live, work and play, as well as, an attractive environment that is conducive to retaining and attracting new businesses. A sense of pride continues to develop in the city as we begin to place more of an emphasis on the esthetic, as well as the internal infrastructure of the city.

The City of Salinas defines a CIP as having; 1) a capital asset with a desired minimum dollar amount of \$5,000; and 2) an estimated useful life of three years or more. Capital assets include land, building, land and building improvements, equipment and infrastructure assets (e.g. streets, sidewalks, traffic signals, and similar items). The proposed CIP includes equipment leases, building leases, and costs associated with maintenance of capital assets that extends the useful life of those assets. Although staff has made every attempt to adhere to the definition of a CIP, there are some items included that do not meet the definition, due to their uniqueness, such as special funding, timing and multi-year nature.

The proposed CIP is addressing many of its immediate needs by using over \$10.5 million during FY 2016-17 of the newly approved Measure G funds and over \$83.4 million for the remaining planned five years. In order to meet the City's needs, it is imperative that the City continues to plan and strategize how it will allocate limited financial resources for capital project. The Capital Improvement Program should not be confused with the Capital Improvement Budget. The capital improvement budget represents the first year of the CIP and is adopted by the City Council. The capital improvement budget authorizes specific projects and appropriates specific funding for those projects. Projects and financing sources listed in the CIP for years other than year one (commonly called "out years") are not authorized until the annual budget for those years is adopted by the City Council. The "out years" serve only as a guide for future planning and are subject to further review and modification in subsequent years by the City Council.

Annually, the City council adopts a six-year CIP to provide a standard by which to:

- Prioritize the increased needs of the City;
- Match as appropriate, available funding to the various needs;
- Plan to meet the City's capital needs over an extended period of time, as funding becomes available; and
- Establish a strategy to secure funding for priority projects.

The CIP is organized by departments/operating divisions inclusive of the following:

- Letter of Transmittal;
- CIP Summary by Department, including a capital projects index;
- CIP Summary by Fund; and
- CIP Sections by Department, including a detailed budget for each capital project.

Potential investments of \$693,964,000 are identified for the six (6) year period from July, 1, 2016 to June 30, 2022. The required investments range from deferred maintenance needs of existing facilities (e.g. Sherwood Hall and fire station repairs) to the construction of long overdue new and expanded facilities (e.g. a new police facility and John Steinbeck and El Gabilan Libraries) necessary to continue providing basic services to the residents of Salinas. Each of the six (6) years in the CIP lists critical investments. The FY 2016-17 proposed CIP Budget is balanced to forecasted revenues. It is important to note that revenues from the Highway User's Tax (Gas Tax) that represent a major funding source of capital improvement projects are considerably lower than in previous years. The significant downturn in revenue is largely due to falling gasoline prices and consumption as well as "true ups" under the fuel tax swap system. Under the swap, the state Board of Equalization (BOE) annually adjusts the rate to try to match what fuel tax revenues in the forecast year would have been under Prop42, the sales tax on gasoline, had the swap not occurred. Later, when the actual amount of gallons sold and taxable sales are known for a year, the BOE

must "look back" and "true up" for any over or under collection of revenue compared to what the sales tax rate would have garnered. This true up is factored into the rate set in subsequent year(s). The result is that if taxable sales of gasoline (which are in turn a function of gas prices and gallons sold) fall more than BOE anticipated in its rate setting, then a downward true up will compound a downward trend in taxable sales in subsequent years. The result was a dramatic downturn of about 56% in the estimated Section 2103 allocations in FY 2015-16 with an impact in FY 2016-17 where staff estimated revenue of 80% of the 15-16 allocation.

City Council Goals and Objectives

On May 3, 2016, the City Council approved the Goals and Objectives for the 2016-2017 time period. These goals and objectives were the result of a strategic planning session held on January 23, 2016, followed by a second meeting on March 1, 2016. Each department has aligned the specific tasks they plan to accomplish during the period to support and accomplish the City Council goals and objectives. These tasks are listed in each department's summary section of the budget. The City Council's strategic goals and objectives are listed below:

Economic Diversity and Prosperity

- Complete the Economic Development Element and Coordinate with major economic development initiatives
- Alisal Vibrancy Plan
- AgTech Ecosystem Development
- Alisal Marketplace
- Revitalize Chinatown
- Entitle and Develop the Future Growth Area (FGA)
- Enhance Permit Center Operations

Safe, Livable Community

- Recruit, hire and retain Public Safety Officers
- Re-establish State and Federal Partnerships to fight crime in the City of Salinas
- Update Technology in Public Safety
- Prepare and present to the public a Community Policing Plan that includes support and involvement of neighborhoods
- Improve Code Enforcement in the City

Effective, Sustainable Government

- Review the format, structure, purpose and processes of existing Boards, Commissions and the City Council
- Inventory and determine cost effectiveness of outside consultants
- Enhance Community input and participation

Well-planned City and excellent infrastructure

- Increase the rate of planned infrastructure improvements (sidewalks, including Laurel Extension sidewalk)
- Housing Element
- Engage Deep Water Desalination
- Begin Installation of Dark Fiber
- General Plan Update

Quality of Life

- Explore Carr Lake opportunities
- El Gabilan Library Expansion
- Conduct Needs Assessment and develop an Open Space Master Plan
- Upgrade community and recreational centers
- Continue collaboration with the County and social service providers to address the needs of the homeless

All of the projects in the CIP fulfill one or more of the five strategic goals. Included in the CIP are projects that specifically address certain objectives include funding and planning for the General Plan Update, Economic Development Element, Alisal Market Place, Chinatown Revitalization, new public safety center, technology upgrades, and the El Gabilan Library Expansion.

FY 2016-17

The FY 2016-17 Capital Improvement Budget is \$23,964,900 (a decrease of 15.0% over the previous year's Budget due mostly to the high investment made by Measure G during its first year of implementation). The General Fund portion of the budget total is \$812,400, including required payments for building leases, fire hydrants repairs, fire safety gear replacement, public safety radio communication system replacement, carpet replacement at second floor of City Hall, General Plan/Zoning updates and Water re-use feasibility study. The City must comply with two federal mandates that require annual investment from the General Fund. One of this mandates requires an upgrade of the public safety radio system funded in FY 2016-17 in the amount of \$210,400 per year. This mandate will require an investment of \$315,600 from the City for the next two years. The other mandate requires the monitoring of storm water discharge (NPDES) with an annual cost of \$265,000. This mandate is met this fiscal year with funding from Measure G. The City will need to spend the same about every year in the future. The only projects funded by Measure V are the initial construction costs of the new El Gabilan Library building (\$1,020,000) and a \$50,000 investment in a City Urbanization History project in a joint effort with the California State University Monterey Bay (CSUMB). Continuing with previous practice, in October of this year a list of proposed projects will be presented to be funded with the one-time Measure V carryover funding from the current fiscal year.

The budget this year includes a variety of projects funded from Measure G (transaction tax revenue). This year the total proposed projects add up to \$10,531,300. Among the 46 proposed projects for FY 2016-17, the financing cost of a new public safety center, fire apparatus and police vehicle replacement, a second installment (\$1 million last fiscal year) of a new Record

Management System for the Police Department and NPDES permit and public education and a City Cleanup program stand out as the ones requiring larger investments. The balance of the budget (\$11,451,200) is funded by development fees, gas tax, approved state and federal grants, and City enterprise funds, all of which require those revenues to be used for the specific purposes listed in the recommended CIP. For instance, the \$1,970,000 in the Industrial Waste Treatment facility Repairs project may only be used for Industrial Waste purposes, or the \$700,000 in TFO (Traffic Fee Ordinance) project may only be used for traffic related projects. TFO fees are paid by developers for specific projects required to mitigate the impacts of development.

Future Investments Needs

The second through sixth years of the CIP list are best described as a list of community needs without any guaranteed source of funding. For instance, FY 2017-18 through FY 2021-22 General Fund projects totals \$6,202,200, Measure V projects total \$1,080,000 and Measure G projects total \$83,342,800. Prior year's policy mandating the use of General Fund and Measure V savings for capital projects provided approximately \$2,000,000 annually. Given the current economic and fiscal condition, it will be necessary to limit any General Fund and Measure V budget savings (carry over) for capital projects that cannot be deferred. Measure G funding is now available to address many of the community needs and will be reviewed by the Measure G Committee. Furthermore, unfunded general government projects total over s\$90,625,000 and will remain unfunded until a source can be confirmed or identified.

Restricted Funds

A combination of various resources are included in the recommended FY 2016-17 capital projects budget for the rehabilitation and development of infrastructure and street systems repair and improvements. Restricted funds include Enterprise Funds, Maintenance Districts Assessment, Community Development Block Grant Funds, Development Impact Fees, Local Gasoline Excise Tax, and Federal Aviation Administration Grants. Examples of programs and projects funded, in whole or in part, from restricted funds include: Industrial Waste Treatment Facility Repairs, Airport Hangar/Buildings Electrical Upgrades, Sanitary Sewer Equipment and Pipes Repair/Rehab, Chinatown and Soledad Area Improvements, Playground Improvements, Recreation Facility at the old Municipal Pool at Sherwood, NPDES Mapping and Public Education programs, Street Sweeper acquisition, ADA Modifications to City Facilities, Improvements at Sun and Market and Kern Street and Natividad and Market Intersections, E Laurel Drive sidewalks and lights and city-wide Annual Street and Sidewalk Repairs. The \$20 million Energy-Related Improvements to City facilities (project 9184) that built solar PV installations at Hitchcock Road Animal Shelter, the Industrial Waste Treatment Plan, the Salinas Municipal Airport, the Permit Center, Sherwood Hall and Sewer lift stations in addition to interior and exterior lighting upgrades at most city facilities is well underway with expected completion in 2017.

Gas Excise Tax

The City's local gas excise tax pays for a portion of the annual streets, streetlights and traffic signal General Fund operating budget (\$1.5 million), the federally mandated NPDES program, including the storm sewer maintenance operating budget (\$750,000), school safety enhancements (\$40,000).

Special Construction Assistance

Investments being proposed in FY 2016-17 under the Special Construction Assistance Fund include Main Street Railroad Crossing (\$215,000), Bardin Road Safe Route to School (\$786,000), Traffic Calming Improvements (\$75,000), E Alvin/Linwood/Maryal Routes (522,000), Bicycle Lane Installations (\$50,000). All these projects are funded by a variety of federal and state grants.

Conclusion

The six (6) year Capital Improvement Program provides a snapshot of community needs. The CIP does not provide a guarantee that all projects will be accomplished. Funding for capital projects are subject to economic conditions effecting General Fund, Measure V and Measure G resources, developer resources, grant availability and State budget actions. The CIP should be reviewed with prioritization in mind in order to establish a strategy to secure funding for the priority projects.

The long-term service and economic development needs of the Salinas community must also be assessed from the perspective of required capital investments. The multi-year CIP provides an opportunity to do so and will continue to be a priority.

Respectfully submitted,

Ray E. Corpuz, Jr. City Manager

Project: Housing Land Acquisition Fund

Department: Community Development

Project Number: 9156

Project Description and Location:

This fund was initiated to allow former RDA properties to be liquidated and the City to acquire. With the successful wind down of RDA, the City is exploring ways to facilitate affordable housing production. The City can use its General Fund, HUD resources, and any inclusionary housing impact fees for land acquisition to facilitate the production of affordable housing.

Project: Airport Electrical Upgrades

Department: Engineering and Transportation

Project Number: 9083

Project Description and Location:

Airport Electrical Upgrades in the airport operation area may be completed in two-phased depending on FAA funding level. The PMMP provides critical pavement data that the airport and FAA uses for prioritizing pavement projects and eligibility for future pavement grants funded by the FAA. FY 2016-17 funding will fund phase I and FY 2017-18 will fund phase II.

Completion Schedule: Start Date 01 JUL 2016 Completion Date 30 JUN 2018

Estimated Annual Operating Budget Cost/Savings	Fiscal Impact: The project is funded by FAA grant 3-06-0206-025. The grant funds 90% of the
Personnel Equipment/Supplies Maintenance Other	project with the Airport Enterprise contributing 10%.

Project: Sherwood Hall Upgrade

Department: Engineering and Transportation

Project Number: 9228

Estimated Annual Operating Budget Cost/Savings

Project Description and Location:

Fiscal Impact:

Sherwood Hall is in need of significant upgrades to return it to a regional attraction as a premium venue and concert hall, that can be used to generate revenue for Sherwood Park's maintenance. A business plan will accompany this "study" that will demonstrate over ten-years, how the funds used to redevelop the Hall can be re-paid by the revenue it generates.

PROJECT COSTS

Project: Vibrancy Plan Infrastructure

Department: Engineering and Transportation

Prior Years

16-17

Project Number: 9230

Project Description and Location:

18-19

Vibrancy Plan implementation calls for the development of several new infrastructure projects and a potential resource to fund these projects is the Enhanced Infrastructure Finance District. It requires no new taxes, because it relies on tax increment financing. A feasibility study is necessary to see if the potential use of these resource is worthy of pursuit.

Project: Vibrancy Plan State Highways

Department: Engineering and Transportation

Project Number: 9231

Project Description and Location:

Vibrancy Plan implementation calls for significant changes. To initiate these changes, Caltrans has to relinquish Hwy 183 to the City for the re-design of the 1925 rail-grade separation and control the signalization of the Market Street intersections. Legislative action and a feasibility study are required to identify the hard costs and the potential risks associated with this move.

Project: Vibrancy Plan Parking

Department: Engineering and Transportation

Project Number: 9232

Project Description and Location:

Vibrancy Plan implementation calls for the consolidation of surface parking into parking structures. In conjunction with the development of enhanced Parking Enforcement and Parking District Management program, a parking infrastructure plan is also necessary. This plan will identify the precise location and size of future structured parking, and various methods by which to pay for their development.

Project: Parking Enforcement

Department: Engineering and Transportation

Project Number: 9249

Project Description and Location:

This program will allow parking enforcement to be assumed by the City Public Works Department. Public Works currently manages the City's parking assets. The transfer of this function to Public Works will allow the City to support its assets, help optimize parking use in commercial areas, support safety at schools and support street sweeping services. The transfer of the parking enforcement program is supported by the Police Department.

Completion Schedule: Start Date 01 JUL 2015 Completion Date 30 JUN 2017

Estimated Annual Operating Budget Cost/Savings								
Personnel	Equipment/Supplies	Maintenance	Other					
	I Costs <savings>:</savings>							
Date Costs < S	avings> Will Occur:							

Fiscal Impact:

The program is designed to improve the revenue stream from parking enforcement that will support and invest in the City's parking assets, return benefits to specific parking programs/districts, and contribute to the Measure G. The first two years are proposed to be a loan from the Meaure G Fund that will be paid from proceeds of enforcement.

Project: Computer Aided Design System

Department: Engineering and Transportation

Project Number: 9667

Project Description and Location:

On-going upgrading of Public Works computers and network system including computer work stations. This project provides for the purchase of upgraded computers over the next two years, and maintaining the current network system to alleviate downtime during network glitches and training. Engineering staff to manage the scanning of files in vault, storage of hard copies in the future and build a retreival system on network to retrieve plans.

Start Date

Completion Date Completion Schedule: 01 JAN 2005 30 JUN 2022

Project: Davis(Blanco-Reservation)

Department: Engineering and Transportation

Project Number: 9923

Project Description and Location:

Design and construction of capacity improvements to Davis Road (Blanco Road to Reservation Road) and Reservation Road (Davis Road to Intergarrison Road). The Project provides for the widening of Davis Road and Reservation Road from two lanes to four lanes and bike lanes. The Project addresses deficiencies along the corridor that links Salinas to the Monterey Peninsula. The Salinas Traffic Improvement Program identifies this need under (TFO #41).

Completion Date

Completion Schedule: Start Date 30 JUN 2021

Estimated Ar	nual Operating Budge	et Cost/Savings	
Personnel	Equipment/Supplies	Maintenance	Other
	I Costs <savings>:</savings>		
Date Costs < S	avings> Will Occur:		

Fiscal Impact:

Estimated total project cost is \$18 million. As this project is located in the County's jurisdiction, regional funding will be used. The improvements provide capacity improvements recognized as necessary by the Salinas General Plan. Therefore, there is also a contribution from City Traffic Impact Fees (TFO #41).

Project: Emergency Generators

Department: Facilities Maintenance Division

Project Number: 9466

Project Description and Location:

During the October 1989 earthquake certain operations in City Hall and the Public Safety Building were curtailed because the existing emergency generator could not provide the electric power needed by both buildings. In 1990 an electrical consultant was engaged to provide an analysis of our needs. This project provides funding for emergency generators at the City Hall/Public Safety building and for the Corporation Yard in order to maintain radio communication.

PROJECT COSTS

Project: Fire Apparatus Maintenance

Department: Fleet Replacement & Maint

Prior Years

16-17

Project Number: 9257

Project Description and Location:

18-19

Project provides for the acquisition of heavy equipment hydraulic lifts for fire mechnics to safely and effectively provide maintenance on larger fire vehicles. Project also provides engineering and outside services to install a concrete pad at Fire Station 1 for the safe lifting of the apparatus.

Completion Schedule: Start Date 01 JUL 2017 Completion Date 30 JUN 2022

19-20

Estimated An	Estimated Annual Operating Budget Cost/Savings								
Personnel	Equipment/Supplies	Maintenance	Other						
	l Costs <savings>: avings> Will Occur:</savings>								

Fiscal Impact:

17-18

The fire department currently has no mechanism to lift the two tiller trucks, two reserve ladder trucks, command vehicle, or the hazardous materials vehicle scheduled to arrive mid FY 16/17. These vehicles must be sent to outside vendors for maintenance and repair to be performed safely which increases out of service time and increases expenditures from operational funds.

Project Number: 9384

Project Description and Location:

Project provides for the replacement/upgrade of nozzles and fire hoses. The department's 5" hose is reaching the manufacture's life expectancy of 10 years.

Completion Schedule: Start Date 01 JUL 2006 Completion Date 30 JUN 2021

Estimated A	nnual Operating Budge	et Cost/Savings	
Personnel	Equipment/Supplies	Maintenance	Other
	al Costs <savings>:</savings>		
Date Costs < 3	Savings> Will Occur:		

Fiscal Impact:

Replacement of nozzles and hose will minimize repairs and maintenance of aging equipment. This will allow personnel to commit to other fire department projects and/or assignments. \$30,000 over 3 years will replace all 5" hose, this will eliminate a one-time purchase of \$90,000 to replace all 5" hose. In FY 2015-16 project will also replace 1 1/2" and 2 1/2" hose.

Project: Fire Hydrant Repairs

Department: Fire Department

Project Number: 9411

Project Description and Location:

Project provides for repairs of fire hydrants in the Alco Water service areas within the City of Salinas. Project also provides for replacement of existing old style hydrants in Alco Water service areas within the City of Salinas with the current city fire hydrant specified.

Completion Schedule: Start Date 31 DEC 2005 Completion Date 30 JUN 2022

Estimated Ar	nnual Operating Budge	et Cost/Savings	
Personnel	Equipment/Supplies	Maintenance	Other
	l Costs <savings>: avings> Will Occur:</savings>		

Fiscal Impact:

The City's franchise agreement with Alco Water does not provide for repairs or replacement of hydrants by Alco Water. Continued general fund allocations are necessary. There are currently 10 fire hydrants that are out of service in the ALCO water area that will have a direct impact on firefighting operations. Avergae repairs cost \$3000-\$5000 per hydrant.

Project: Fire Safety Gear & Equipment

Department: Fire Department

Project Number: 9527

Project Description and Location:

Project provides for the annual replacement of fire safety turnout gear, Personal Protective Equipment (PPE) and safety equipment.

Completion Schedule: Start Date 13 FEB 2007 Completion Date 30 JUN 2022

Estimated A	Estimated Annual Operating Budget Cost/Savings									
Personnel	Equipment/Supplies	Maintenance	Other							
	al Costs <savings>: Savings> Will Occur:</savings>									

Fiscal Impact:

Safety gear is replaced annually as the CIP is funded, unfortunately, mandated cleaning after exposure to fire by-products and bio-hazards require that safety gear and PPE be professionally cleaned. FY 16/17 & 17/18 require additional funding acquire new PPE for new employees to implement the squad program and replace positions becoming vacant through attrition.

Project: Mobile Command Veh Recur Cost

Department: Fire Department

Project Number: 9985

Project Description and Location:

This CIP would serve secure ongoing subscription services for satellite broadband, communications connectivity and ongoing hardware technology upgrades and support. The initial costs for these services were grant funded and ongoing grant funding is unsecured. This asset directly supports the City's EOC.

Completion Schedule: Start Date 01 JAN 2016 Completion Date 30 JUN 2022

Estimated Annual Operating Budget Cost/Savings									
Personnel	Equipment/Supplies	Maintenance	Other						
	l Costs <savings>: avings> Will Occur:</savings>								

Fiscal Impact:

The Mobile Command Vehicle is a regional asset and is deployable to Monterey County public safety agencies as a "mutual aid resource". However, the unit is deployable and reimbursable through statewide agreements and is also reimbursable for regional "planned events". As this is the goal of the program, secured funding for recurring costs is necessary to avoid interruption and continuity of services.

Project: Fire Sta. Alerting Sys Update

Department: Fire Department

Project Number: 9987

Project Description and Location:

The project builds on the upgrades completed at fire station #1 in FY 2009. Timely relay of critical dispatch information aids to reduce overall response times, reduce errors in dispatch and provide a layer of redundancy for critical dispatch communications systems. The current fire station alerting systems are over 30 years old and rely on antiquated voice technology.

Completion Schedule: Start Date 01 JUL 2015 Completion Date 30 JUN 2022

Estimated Annual Operating Budget Cost/Savings								
Personnel	Equipment/Supplies	Maintenance	Other					
	l Costs <savings>: avings> Will Occur:</savings>							

Fiscal Impact:

FY 2014-2015 provides for the purchase of a software interface from the County of Monterey CAD system to provide fire station alerting and CAD data to the fire stations as well as the upgrade of one station. This is proposed to coincide with the deployment of the Monterey County NGEN radio system. FY 2014-2015 upgrades one station; FY 2015-2016 upgrades two stations.

Project: Fire Staff Management Software

Department: Fire Department

Project Number: 9988

Project Description and Location:

This project provides for the annual subscriptions to Target Solutions (training software), ESO (EMS and Fire reporting), Manager + (Asset Tracking Software), Telestaff (Staffing Software), and Lexipol (Fire Department Policy) programs.

Completion Schedule: Start Date 01 JUL 2016 Completion Date 30 JUN 2022

Estimated Ar	nnual Operating Budge	et Cost/Savings	
X Personnel	Equipment/Supplies	Maintenance	Other
	I Costs <savings>: <9</savings>	1,000>	

Fiscal Impact:

Currently 4-6 staff hours are expended daily to manage staffing schedules and overtime. Implementation of this automation would streamline the scheduling process and reduce administrative fiscal impacts and costs as a result of daily staffing changes and MOU compliance considerations. Implementation would also provide accountability for the process and allow for more accurate reporting.

Project: Carr Lake Development

Department: Parks and Community Services

Project Number: 9902

Project Description and Location:

The acquisition and development of Carr Lake (450 acres) is identified in the General Plan. Carr Lake basin (377 acres) is part of the regional drainage system and must generally remain open space. The developable (73 acres) could be acquired and would preserve the option to develop this recreation facility. Preliminary planning as to the potential reconfiguration and use of this area must be completed as a prerequisite to any specific plan for the area.

Project: Sewer Pipe & Manhole Repairs

Department: Sanitary Sewer Division

Project Number: 9742

Project Description and Location:

In order to stop serious deterioration in manholes and pipelines throughout the City, a liner will be installed in manholes each year to significantly reduce maintenance cost. This project also provides for the repair and/or replacement of sanitary sewer pipelines as necessary throughout the City.

Completion Schedule: Start Date 01 JUL 1995 Completion Date 30 JUN 2019

Estimated Annual Operating Budget Cost/Savings		Fiscal Impact: To be used in conjuction with CIP 9126 Sanitary Sewer Pipes Repair/Rehab.
Personnel Equipment/Supplies Maintenance	Other	To be used in conjuction with Cir 3120 Sanitary Sewer Pipes nepali/neriab.

Project: Natividad Creek Slit Removal

Department: NPDES Storm Drain Sewer Div

Project Number: 9086

Project Description and Location:

Remove slit from sections of Natividad Creek between Boronda Road to East Laurel Drive. Make repairs to banks and the water channel as required; and make repairs to any outfalls that tie in the creek. Project will be done in two phases: Phase 1 will call for channel assessment and design; and Phase 2 will call for the actual slit removal and repairs.

Project: Santa Rita Storm Channel

Department: NPDES Storm Drain Sewer Div

Project Number: 9175

Estimated Annual Operating Budget Cost/Savings

Project Description and Location:

Fiscal Impact:

This project provides for the repair of the storm water channel at Santa Rita Park. The storm water channel has been damaged by erosion due to multiple storm events in recent years. The project includes the widening of the concrete portion of the channel and a paved access driveway for maintenance vehicles as well as a re-grading of the channel slopes to include hydro seeding. The total reconstruction includes approximately 1,300 linear feet of the channel. Start Date

Project: Utility Underground Districts

Department: Street Maintenance Division

Project Number: 9085

Project Description and Location:

Construction and installation of City of Salinas Standard Street Lights in conjunction with utility undergrounding construction and engineering costs associated with project coordination with utilities and property owners for undergrounding all electrical, telephone and cable utilities.

Completion Schedule: Start Date 01 JUL 2001 Completion Date 30 JUN 2024

Estimated Ar	Estimated Annual Operating Budget Cost/Savings										
Personnel	Equipment/Supplies	Maintenance	Other								
	l Costs <savings>: avings> Will Occur:</savings>										

Fiscal Impact:

Staff time to coordinate with utility companies the utility underground district and work with property owners on trenching in their property. Staff time to inspect the work that the utility companies are doing. The CPUC Rule 20A funds will be utilized for the PG&E portion of undergrounding the area. Telephone and Cable TV shall follow.

Project: Martella St/Preston St Assessment Dist

Department: Street Maintenance Division

Project Number: 9867

Project Description and Location:

The City has an ongoing program to resurface/reconstruct City streets. The resurfacing of streets prolongs the life of the streets by decreasing deterioration; however, Martella and Preston Streets in this case are beyond resurfacing. Therefore, a complete reconstruction of these streets is warranted. Includes striping, upgrades to signing, ADA pedestrian ramps, catch basin upgrades and strom drain improvements.

Project: Traffic Signal Installation

Department: Traffic Signals Division

Project Number: 9654

Project Description and Location:

In the past, Engineering & Transportaion Department installed traffic signals, including Opticom controls, and upgrading existing traffic signal components, at intersections when warranted. Prioritized intersection locations will be identified each year and brought before the City Council for consideration, prior to project design. Laurel Dr. & St. Edwards traffic signal is schedule for design in FY 16-17.

Completion Schedule:Start Date 01 JUL 2000Completion Date 30 JUN 2021

Estimated Annual Operating Budget Cost/Savings										
Personnel Equipment/Supplie	es X Maintenance	Other								
Estimated Annual Costs < Savings >: Date Costs < Savings > Will Occur:	2,200									

Fiscal Impact:

Once the signals are installed, the City will be responsible to maintain the facilities. Currently it cost the City approximately \$1,500 per year per intersection to maintain a traffic signal system. This includes regular maintenance and electric power. A Fire Opticom system is included in each traffic signal installation.

Project: T/S Front St. & John St.

Department: Traffic Signals Division

Project Number: 9953

Project Description and Location:

Front Street/John Street Intersection #5-This intersection is in close proximity to the Abbott Street/John Street intersection and it should be signalized; it will have to be linked and synchronized. As an alternative to signalization, the conversion of this intersection to a right-in, right out intersection could be futher investigated. That could have re-routing implications that could affect the Abbott Street/John Street intersection.

Project: T/S Front St. & Alisal St.

Department: Traffic Signals Division

Project Number: 9954

Project Description and Location:

Mitigation #9-Front Street/Alisal Street Interesection #3-Adding a second SB left turn lane, adding a right turn lane on the WB approach to have one left, two through and one right turn lane and implementing a RTO phase for SB and WB approaches are required.

Estimated Annual Operating Budget Cost/Savings	Fiscal Impact: Tynan Village mitigation measures from traffic analysis.

Project: T/S US 101 NB Ramp at Kern St.

Department: Traffic Signals Division

Project Number: 9956

Project Description and Location:

Mitigation#5-Highway 101 NB Off Ramp/Kern/Mobray Intersection#8-signalization of this intersection is required. Caltrans/MUTCD peak hour signal warrants are met at this intersection, but the traffic volumes on the worst approach (WB-Mobray Way) are significantly low.

Estimated Annual Operating Budget Cost/Savings	Fiscal Impact: Tynan Village mitigation measures from traffic analysis.
