Subject: Mtg Sept 9 @6 no stopping red zone's

I would like to say I agree with painting of the red curbs around every corner in town. It has gotten to the point where individuals will park right around the corner making it difficult to pull out into traffic.

I also strongly agree that we NEED a STOP SIGN installed at the corner of Truman Street and Arthur Street! Individuals speed constantly around the corners coming off of Fillmore Street onto Truman Street as there is NO STOP SIGN there and continue like a race track around the corner of Truman Street and Arthur Street! My car alone has been hit a couple of times. There is a DAYCARE across the street, one day someone will get hurt.

Thank you.

Mrs. Hughes

Dear comissioners;

Re, the " No Topping" at the intersection of of Van Buren Ave. @ Fillmore Ave. and Arthur St.
@ Truman St.

Those intersection lack crear view of traffic, creating a visual and safety hazard at those intersections.

We need to aliviate that hazard for the life and safety in our neighborhood.

Please act accordingly and thank you for your support.

Subject: "No Stopping/Parking Zones" on Van Buren Ave.

I would like to discuss the extent of the proposed "Red Zone" and how it will effect the parking for residents. I am concerned that this will only add to the already limited parking in this area. As well I would like to address the speeding that is happening on Van Buren Avenue. Over the last 20 years that we have lived here we have seen an increase in speeding and this needs to be addressed.

Sincerely,
Tim Todd
18330 Van Buren Ave.
