If the board finds the proposed historic resource or historic district meets the criteria, it shall recommend such designation to the city council. If the board finds that the application does not meet the criteria, it shall recommend denial of the application and state the reasons for such denial.
- (d) Public Hearing. The application and supporting information shall be reviewed by the planning manager, or his designee, for adequacy and completeness under the requirements of this section. The planning manager, or his designee, shall schedule a hearing on the matter before the board within forty-five days of the date the application was determined to be complete. Notice of the time, place, and purpose of such hearing

will be mailed to the owner of the proposed historic resource, or to the owners of those properties proposed for inclusion within an historic district, and to all property owners within a three hundred-foot radius of the property or district proposed for designation, at the address shown on the latest assessment roll. Failure of owners to receive notice of such hearing shall in no way affect the validity of any action taken. Prior to the public hearing, the board shall publish and transmit to all interested parties a list of proposed designations, and shall disseminate any relevant public information concerning the application to be considered.

The property owner and/or any authorized representative shall be prohibited from undertaking any alteration, construction, demolition, grading, or removal of such property, and no permit to undertake such work shall be issued, until the proposed designation has been considered and a determination on the matter made by the city council. Nothing in this provision shall be construed as prohibiting or infringing on the legal use of a property pending consideration by the board and by the city council. The provisions of this section shall not apply to the construction, grading, alteration, demolition, or removal of any structure or other feature, where a permit for the performance of such work was issued prior to the date of notice of hearing to consider the designation of the historic resource, and where such permit has not expired or been canceled or revoked. Prior to the board and the city council's hearing on the designation of the proposed historic resource, upon application of the property owner and/or authorized representative, the planning manager or his designee may approve a permit for alterations, construction, or reconstruction consistent with ordinary maintenance and repair and reuse of the property and proposed historic resource, to the extent that such work does not adversely affect the exterior architectural features of the property or proposed historic resource.

- (e) The designation of a buildings, structure, object, or site as an historic resource shall not alter conformance requirements with the other standards and requirements of the City Code or of state law including, but not limited to, the California Historic Building Code.

- (g) Approval of Board Recommendations. The city council shall approve the recommendation in whole or in part, or shall disapprove the recommendation in its entirety. Notice of the city council's decision shall be sent to applicants and owners of the proposed historic resource. Failure to send notice by mail to any property owner shall not invalidate any proceedings in connection therewith.

Sec. 3-20.06. Alteration or demolition of an historic resource.

- (a) No person may alter or demolish an historic resource without first obtaining a certificate of appropriateness as provided for in this section.
- (b) Applications for a certificate of approval shall include historical information regarding the property, a detailed statement of the proposed alteration, including architectural plans and any other information deemed appropriate by the community development director or his designee. If deemed appropriate by the community development director or his designee, all proposed design and construction plans shall be subject to review by the board or by a third party recognized preservation specialist, with the cost to be borne by the applicant.
- (c) All requests for a certificate of approval shall be processed as follows:
 - (1) Minor Alterations. If in the judgment of the community development director or his designee the proposed minor alteration is consistent with the applicable design standards prescribed in this section, the community development director or his designee may approve or conditionally approve the application. If the community development director or his designee finds that the proposed is not consistent with the applicable design standards, the application shall be forwarded to the board for their review and determination, with all costs of such review to be borne by the applicant. For purposes of this section, the term minor alteration shall mean a modification to one or more of the following items: building color; signs; light fixtures; plant materials, landscape, tree removals; street furniture; awnings; doors, windows, chimneys; interior building modifications that do not affect the exterior appearance of a structure; or any other similar alteration deemed appropriate by the community development director or his designee.
 - (2) Major Alterations. All proposed major alterations shall be forwarded to the board which will review the project design and conditions of approval and may deny, approve, or conditionally approve the application. For purposes of this section, the term major alteration shall mean a modification to one or more of the following items: additions to a structure which exceed five hundred square feet in total area; construction of a new structure; exterior building materials other than those defined as minor alterations; grading; natural features designated as an historical resource; or renovation, rehabilitation, or restoration of an existing structure. The board is given the authority to delegate certain major alterations to the community development director or his designee for review and approval or denial.
 - (3) Alterations Accompanied by Planning Entitlement. All proposed alterations that are accompanied by a request for planning entitlement shall be, in the discretion

of the city planner, routed to the board for their recommendation to the planning commission.

- (4) Demolition or Alteration; Demonstration of Economic Hardship. All proposed demolitions shall be forwarded to the board which will review the application and may deny or approve the proposed demolition. An historic resource may be demolished if the board, or the city council upon appeal, finds after review that maintenance, use, and/or alteration of the historic resource in accordance with the requirements of this article would cause immediate and substantial hardship on the property owner because rehabilitation in a manner which preserves the historical integrity of the historic resource is (1) infeasible from a technical, mechanical, or structural standpoint, and/or (2) would leave the property with no reasonable economic value because it would require an unreasonable expenditure taking into account such factors as current market value, permitted uses of the property, the value of transferable development rights and the cost of compliance with applicable local, state, and federal laws and regulations.

(d) Alteration of a Resource. In evaluating applications for alteration of an historic resource, or contributing resources located within an historic district, the board or the city council upon appeal, shall consider the architectural style, design, arrangement, texture, materials, color, and any other factors identified in the application. The board, or the city council upon appeal, shall approve the alteration for any proposed work only if it finds (1) with regard to an historical resource, the proposed work will neither adversely affect the exterior architectural features of the resource nor adversely affect the integrity or historical, architectural, or aesthetic interest or value of such resource and its site, and (2) with regard to any property located within an historic district, the proposed work conforms to the criteria set forth in this article and does not adversely affect the integrity of the historic resource or the historic district.

Sec. 3-20.07. Duties and powers of the city council.

The sole authority to declare and to endorse historic resources shall be vested in the city council and shall be exercised only after completion of the board's responsibilities under the designation process set forth in this article. No recommendation for designation once considered and disapproved by the city council shall be reconsidered except upon the affirmative vote of four councilmembers. Any decision to reconsider shall be treated as a new proposal for designation. Any decision of the city council under this article shall be final.

Sec. 3-20.08. Appeals.

The board's decision to approve, disapprove, or approve subject to conditions any application may be appealed, in writing, by the applicant within ten calendar days of such decision. If no appeal is filed with the city clerk within ten days after the decision of the board, such decision is final.

Sec. 3-20.09. Amendment or rescission of designation.

Any designation of an historic resource may be amended or rescinded in the same manner and procedure as was followed in the original designation. The action shall result from new information, the discovery of earlier misinformation or change of original circumstances, conditions or factors which justified the designation of the historic resource or district.

Sec. 3-20.10. Ordinary maintenance and repair.

Nothing in this article shall be construed to prevent the ordinary maintenance and repair of any exterior feature of any structure or property covered by this article, so long as such maintenance and repair does not involve a change in exterior design, material, or appearance. City staff is authorized to develop and to implement a procedure to issue over-the-counter permits for all ordinary maintenance and repair meeting the above description.

Sec. 3-20.11. Unsafe or dangerous conditions.

None of the provisions of this article shall prevent any measures of construction, alteration, or demolition necessary to correct the unsafe or dangerous conditions of any structure, other feature, or part thereof, where such condition has been declared unsafe or dangerous by the building official of the city or the fire chief of the city, and where the proposed measures have been declared necessary by such official, to correct the said condition; provided, however, that only such work as is absolutely necessary to correct the unsafe or dangerous condition and as is done with due regard for preservation of the appearance of the structure involved may be performed pursuant to this section. In the event any structure or other feature shall be damaged by fire, earthquake or other natural disaster, to such an extent that in the opinion of the building official of the city or the fire chief of the city it cannot be reasonably repaired and restored, it may be removed in conformity with normal permit procedures and applicable laws. If the condition of an unsafe or dangerous historic resource so permits, the official in charge of correcting such a condition shall consult with the board before carrying out corrective measures.

Sec. 3-20.12. Duty to keep in good repair.

The owner, lessee, and any other person in actual charge or possession of an historical resource shall take steps necessary to prevent the substantial deterioration or decay of any exterior portion of such a resource or improvement and to prevent the substantial deterioration or decay of any interior portions thereof whose maintenance is necessary to preserve any exterior portion. As used in this section, the term "substantial deterioration or decay" shall refer to those conditions of the structure or improvement that threaten the structural or historical integrity of the resource or improvement.

Sec. 3-20.13. Enforcement.

It shall be unlawful for any person to permit or to maintain violations of any provisions of this article by undertaking the alteration, grading, removal, demolition, or partial demolition of an

historic resource or a building, structure, object, or site within an historic district without first obtaining the written approval of the city council and the city's community development director or his designee. Any violations of this article may be enforced through civil action brought by the city or through prosecution pursuant to the city's administrative remedies ordinance or through the use of any other remedy available under the law. As part of any enforcement proceeding, violators may be required to reasonably restore the historic resource, or building, structure, object or site within an historic district, to its appearance or condition prior to the violation, under the guidance of the community development director.

Section 3-20.14. Historic preservation incentive—City of Salinas Mills Act Tax Savings Program for Historic Properties.

Pursuant to California Government Code, Article 12, Section 50280 (known as the Mills Act), the city council may establish a Mills Act Program providing for contractual agreement with an owner of an historic property as designated by the city council or on any official federal, state or county register, for the purpose of preservation, rehabilitation, and maintenance of a designated historic resource. The terms of the Mills Act agreement allow the owner to receive a reduction in property taxes in exchange for the property owner's commitment to specific repair, rehabilitation improvements and satisfactory maintenance of the historic property. The agreement shall include, but not be limited to, the contract provisions as required under state law, and shall extend for a minimum period of ten years, with automatic renewal on an annual basis, until and unless a notice of non-renewal or cancellation is filed. The application process, review procedures, and required contract provisions for Mills Act agreements shall be established by separate resolution of the city council and shall be implemented by the community development director or his/her designee.

SECTION 4. Article VIII of Chapter 9 of the Salinas Municipal Code is hereby repealed in its entirety.

SECTION 5. Article 3 is hereby added to Chapter 3 of the Salinas Municipal Code and shall read as follows:
