Kendra Howell, Chairperson
City of Salinas
Traffic and Transportation Commission
200 Lincoln Ave.
Salinas, CA 93901

Dear Ms. Hayes:

It has been brought to our attention by businesses in our district on East Alisal Street that parking has become very limited in the 800 block of East Alisal Street. Due to this, their businesses are being affected economically. In order to accommodate this issue as a business improvement district it is our responsibility to assist as fairly as possible the businesses in our district to make improvements.

Many businesses in the area are being impacted by the lack of parking in the street. In order to be proactive we are interested in moving forward to look at the feasibility of one hour parking on this block.

Our organization is in support of a 1 hour parking zone on the 800 block of East Alisal in the hopes to alleviate the issue; we are advocating improving the issue of parking for existing and future businesses through this action.

Respectfully,

Alejandro Chavez
Executive Director
