Subject: Traffic Issues/Complaints

Hello Katie,

I had two calls that came in today that I couldn't find the right place for in QAlert, but both seemed as traffic related issues.

The first call came from:

Sister Barbara

Text redacted

Text redacted

Issue: She is complaining about all the parked cars on Talbot Street and along San Vincente Avenue. Mostly all the cars parked in the area are students that attend Hartnell College and with the overload of cars, it causes visibility issues. Also cars park along the curves or corners of the streets, so she is suggesting for more red curbs be put in the area because it's difficult to get around the cars at times.
