2:17:52	Christine Duncan:	We also need to be safe and cannot be without a fully funded police department. Police not only enforce law but act as first responders wearing quasi social work hats. Never recognized.	
2:18:10	Charlene Blackwell:	^yes	
2:18:31	F. A.:	Those jobs should go to actual social workers who are trained in dealing with specific human crises.	
2:18:56	diego puga:	provide money for our communities, if the money is going to be funded towards police, at least train them properly. give them the proper training and provide the proper requirements to handle situations safely and efficiently. so much hatred rooted in our system and within our PD	
2:19:03	Mamie Robinson:	We need to invest in our youth and offer more enrichment programs to them.	
2:19:08	Christine Duncan:	Agree and that is why more recognition and funding for multi layered role of police is recognized.

2:21:01	diego puga:	we need to provide the money to our youth, so many individuals going with out the correct utensils and technology	
2:21:46	Becky:	Yes we need accessibility to wifi (aka education and Information) for all - not just those in certain zip codes.	
2:21:47	Ela Godoy:	The presence of police actually increases the amount of violence that people are subjected to; especially people of color. We talk about Salinas as a whole as if the east side of Salinas is not completely different from the South side. These conversations need to be addressed. Especially since there is the misconception that police help communities to keep them safe.	
2:21:51	Jason Agpaoa:	Ethnic Studies should be incorporated into all aspects mentioned in the chat! Police officers need Ethnic Studies training!! Schools need Ethnic Studies curriculum!!	
2:22:04	Daniel:	our safety does not simply depend on a fully funded police budget	
2:22:09	D Gonzalez:	we need honest cops not corrupt ones we need Frank Serpicos in the force! I am already supporting law enforcement with my tax dollars! I don't support the Blue Lives Matter bandwagon! sorry not sorry!

2:23:25	Becky:	Exactly. I live in the South Side, grew up in the North, and my parents grew up in the East. The dialogue is loaded with innuendoes. And it's frustrating for those of us who love all of Salinas.

2:23:29	Shawna McNutt:	Check out the data - in cities that de-funded police, they are seeing large percentage increase in homicides, shootings, gang activity	
2:23:55	Amanda Gonzales:	Fund our communities not the police. We need better invested programs for Indiciduals and families. We need equitable housing for ALL. As a teacher making a decent salary- I can't even afford to live here. That's a big problem. In my neighborhood there are five families to a home. Our youth and families deserve so much better.	
2:24:02	Juana:	Youth are our future and we must invest into their success

2:26:57	Becky:	Exactly. Funding Schools reduces crime. Look up that data!	
2:27:12	Vanessa Robinson:	Yes education funding comes from the state.	
2:27:15	Jason Pineda:	probably both Melanie also other places	
2:27:16	Sue:	Schools in Salinas are receiving so much money from all the new grants. Check it out. You need to check out the revenue for schools before making comments that are not true.	
2:27:27	Vanessa Robinson:	Does that absorb the community in investing in supplemental supports?	
2:27:39	Yolly:	Nobody said officers aren't human. The problem is they treat some of us like we aren't humans depending on what side of town we live in.	
2:27:51	diego puga:	exactly yolly!	
2:27:52	Becky:	It is true that funding education reduces crime. Regardless of where money comes from.

2:28:38	Becky:	Exactly. How can you have home school w out a computer or wifi.	
2:28:48	Amanda Gonzales:	Thank you Becky! Also look at the data for Stockton CA and the initiatives they're doing.

Why do residents always assume it is someone else's job to creat the city we want. If we want less violence, less trash, more beautiful parks then band together to make this happen. Quit the blame game and help the city and departments make it what you want.

2:55:27	Chelsea:	Didn't have a chance to share, but want to reiterate what so many are saying. Improving Salinas looks like investing more directly into the people not just police officers. As far as education being state funded, cities can still fund childcare programs, after school, recreation, tutoring to supplement our schools. When we OVER fund police, we do not put those badly needed resources into food, housing, and childcare. When 45% of budget is eaten up by reactionary policing, we aren't doing anything to PREVENT safety issues. Invest directly in communities with highest needs.

2:58:08 Iris Rivas: All can fall under. 2:58:22 Amanda Gonzales: © Sue what are you doing then to help the most vulnerable populations in our city? Somethings to fix in the community: 1. Reinvest/Beautify North and East with more trees/roads etc. as much as the City of Salinas has invested in South Salinas. 2. Build more affording housing through out Salinas and not just in one area (ex: we continue to build affordable housing near china town, which doesn't help family get out of property is they are surrounded by drug and violence. 3. More funding to support our mental health and our homeless population. The solutions we have now are not working. I would strongly suggest parting with agents of 831 when coming with solutions to support our homeless population. 4. Reform within SPD 2:58:42 Iris Rivas: Salinas is in need. 2:58:50 Sue: Heavily volunteering and making great contacts Echoing again defunding the police and reallocating this money to education, youth, social/emotional support, homelessness and much more. When we OVER fund police, we do not put those badly needed resources into food, housing, and childcare. When 45% of budget is eaten up by reactionary policing, we aren't doing anything to PREVENT safety issues. Invest directly in communities with highest needs.	2:57:59	Devon Talavera (she/her):
