**WHEREAS**, the Salinas City Council adopts the following findings as the basis for its determination, and that the foregoing recitations are true and correct, and are included herein by reference as findings:

**Rezone 2020-001:**

***1. The amendment is consistent with the Salinas General Plan, any applicable Specific Plan, and other plans and policies adopted by the Salinas City Council.***

Per the 2002 Salinas General Plan, the “Park” designation allows for existing and proposed public and private recreation site for parks and golf courses. Activity areas that may be developed include large multipurpose fields for community events and informal recreation, areas for active sports play, tot lots, picnic areas, multipurpose sports fields and courts, golf courses, concessions, community event space, outdoor amphitheaters, nature study centers, maintenance/support facilities, and caretaker facilities. Interim agricultural uses would be permitted on sites designated for park use until such time as park facilities are constructed. The General Plan Amendment would not change the designation of the project site.

The proposed project is consistent with Salinas General Plan Goals and Policies. The proposed Park and Recreational Facilities use on the project site is consistent with General Plan Goal COS-7, by providing and developing ample park and recreational facilities that offer a variety of recreational facilities. The project also complies with General Plan Policy COS-7.1, by developing a high-quality public park system that provides adequate space and facilities for a variety of recreational opportunities conveniently accessible to all Salinas residents. The project also complies with General Plan Policy COS-7.2, by maximizing the use

of built and natural features to develop a citywide network of parks and open space with Carr Lake, Gabilan Creek, and the Sherwood Park/Rodeo Grounds complex as essential elements of the open space network.

Per Zoning Code Section 37-30.340, the purposes of the “Parks” land use designation is to provide for existing and proposed active and passive parks and recreational facilities, establish and maintaining park and open space areas in the City for recreational opportunities, prevent incompatible development in areas that should be preserved or regulated for scenic, recreational, conservation, aesthetic, or health and safety purposes; and promote vital and safe park areas through the incorporation of crime prevention through environmental design (CPTED) features in development.

The proposed Rezone requests to change the Zoning designation of six (6) parcels of the project site consisting of 73 acres from “Agricultural – Flood Overlay” (A-F) to “Parks – Flood Overlay” (P-F); Currently, the project site is zoned “Agriculture – Flood Overlay” (A-F), which as per Zoning Code Section 37-30.020, Table 37-30.10 does not allow for Park and Recreational Facilities uses. The proposed rezoning of the project site would be consistent with Sherwood Park located to the west and with the park uses located to the north and southeast. The proposed rezoning is consistent with the purposes of the “Parks” land use designation by providing additional recreational opportunities. In addition, the proposed Parks and Recreational Facilities use would prevent incompatible development in an existing Agricultural area that should be preserved or regulated for scenic, recreational, and conservation purposes.

2. ***The amendment will not have the effect of reversing the policies of the Salinas General Plan, any applicable Specific Plan, and other plans and policies adopted by the Salinas City Council.***

There are no policies within the Salinas General Plan that would be reversed as a result of this amendment. There are no Specific Plans or Precise Plans applicable to the site.

3. ***The amendment would not create an isolated district unrelated to adjacent zoning districts.***

The proposed rezoning will not create an unrelated zoning district because the rezoning of the project site from “Agriculture – Flood Overlay” to “Parks – Flood Overlay” would be consistent with other nearby Park Zoning Districts located to the north and the southeast. The rezoning to “Parks – Flood Overlay” would be consistent with the Salinas General Plan which designates the project site as “Park”.

4. ***The City has the capability to provide public utilities, roads, and services to serve the uses allowed by the proposed amendment.***

Salinas is an urbanized area and public infrastructure is presently in place to serve most uses. The proposed Rezone would not create the need for additional infrastructure.
